Hei!

Det ble en fin spalte som avslutning på året med stor dominans av logger fra Kongsfjord-ekspedisjonen i oktober. Mye artig ble hørt, både fra Asia og Nord-Amerika. Mon tro hva som kan høres på QTHet når neste solflekkminimum nærmer seg?

	14.10	2323	CBC North relay , // CFYK-1340. CBQD Ft. Resolution NT was listed here previously, but not listed in the new NRC-log. A rather sensational pass over the Pole if it's one of the 40-watt relays. The sunset line stretched from Mid-Manitoba and NW-wards, so the station should be located East of this line. Very weak; modest EU QRM and not least the absense of CKX Brandon made this possible. At the same time several of the stronger Alberta stations were heard despite well before their sunset.	KONG5
1230	15.10	1205	KVAK Valdez AK playing with a tremendous signal for a GY-station – clear and very strong at this time. CNN News.	KONG5

1450	15.10	1205	KLAM Cordova AK with a signal usually only heard on clear-channel stations – ending ABC News with local weather and a few superb ID’s. Fabulous signal.	KONG5
1460	15.10	1240	KARR Kirkland WA religious music. KMWX Yakima was probably the one behind with oldies music.	KONG5
1510	16.10	0128	WLAC Nashville TN	KONG5
	15.10	0526	KGA Spokane WA.	KONG5
1550	15.10	0512	KYCY San Francisco CA w/ CNN Headline News; the strongest and most common West Coast station during KONG5, out-pacing even the usual dominant KFBK-1530.	KONG5

1590	15.10	0617	KLIV San Jose CA weak, but ok ID before fading out. Few minutes later a station with CNN heard here, probably the same.	KONG5
	16.10	0059	KVGB Great Bend KS	KONG5
1600	15.10	0637	KUBA Yuba CA in the clear with several ID’s during weather forecast. Seemed to be nostalgia format.	KONG5
	15.10	0831	KGST Fresno CA up and down for some time, sometimes very strong but only when not speaking! ID’s mostly as “La Mexicana” but once noted with “KGST La Mexicana” ID.	KONG5
	15.10	0742	KCKK Lakewood CO “Magic Country Favorites, 16 K”. So no FM-relay anymore. This normal dominant only briefly heard.	KONG5
1620	15.10	0700	KSMH Auburn CA full-hour ID, steady signal but its religious programming produces few ID’s.	KONG5
